

NYMHY

H05VV-F

Product Series Code: 6000

APPLICATION

Cable suitable for usage in household appliances, kitchens, and offices. For use with portable lighting such as table lamps and office equipment. Outdoor or industrial use is generally not recommended.

CONSTRUCTION

Conductor

Class 5 flexible copper conductor

Insulation

PVC

Outer sheath

PVC

Jacketing color

- White
- Black

Marking

by ink jet on one line each one meter based on the request

STANDARDS

- IEC 60227
- Conductor acc. to IEC 60228
- In case of flame retardant/LSZH , IEC/EN 60332
- EN 50525-2-11

TECHNICAL CHARACTERISTICS

-  Voltage Rating (UO/U): 300/500v
-  Max continuous operating Temp: 70°C
Max Short circuit temperature: 160°C
Cable operating Temp Range: +15°C to +50°C
-  Minimum Bending Radius Fixed: 6 x overall diameter.

CORE IDENTIFICATION

- 2 cores: Blue  Brown
- 3 cores: Green/Yellow  Blue  Brown
- 4 cores: Green/Yellow  Brown  Black  Gray
- 5 cores: Green/Yellow  Blue  Brown
 Black  Gray
